

What if we have a COVID-19 lockdown again?

It is possible that we will need to go into COVID-19 lockdown again. This is a precautionary measure which will be aimed at breaking the transmission chain so coronavirus is less likely to spread. These are some possible scenarios:

- *A bubble or pod has to go home for 14 days*
- *The whole school has to shut down for at least 14 days*
- *The whole area e.g. Hounslow has to return to lockdown for multiple weeks*

If any of these scenarios happen we will immediately activate our 'Online Learning and Support Plans' and move to an online system of learning and daily contact.
