

# External visitors and trips

**There will be no external visitors to the school working directly with pupils unless absolutely necessary e.g. a social worker or therapist.**

Where external visitors must enter the building we will ensure, before they enter, that they confirm they are not currently showing COVID-19 symptoms and that they have not knowingly been in contact with someone who has tested positive for COVID-19 in the past 14 days.

Once in the building we will take their full contact details in case we need to initiate track and trace systems and they will be required to follow all aspects of our COVID-19 Charter.

**There will be no external trips or visits unless absolutely necessary, for now.**

*We will review these procedures as needed, and by October half term.*

**Visitor  
entrance**
